Special Thought Leadership Report March 2024

Empowering Data Analytics and AI with Knowledge Graphs

For humans and machines alike, the ability to find, use, and trust data is paramount to accomplishing any task. However, for organizations today, this is also an ongoing challenge. Data consumers want fast, actionable insights. Meanwhile, the volume and variety of structured and unstructured data continues to grow—along with data silos. These factors make connecting different types of data in meaningful ways increasingly difficult.

Knowledge graphs have surged in mainstream use as a powerful tool for integrating data, mapping relationships, discovering facts and patterns, and helping business leaders make more informed decisions. As more organizations shift to a data fabric paradigm and navigate the issue of AI trustworthiness, knowledge graphs also occupy a unique position as a key ingredient in the future of how data is managed and analyzed. From generative AI and LLMs to graph neural networks, the graph space continues to flourish with new technologies, use cases, and applications.

To educate IT leaders and data professionals about the latest solutions and best practices, *DBTA* is publishing a special thought leadership report in March 2024 that will be marketed to more than 100,000 qualified subscribers at organizations across North America. Sponsors get to promote their solutions and receive all the leads produced from downloads, screened, and cleansed.

Generate leads for your sales force

- All requests for the PDF version housed at dbta.com will be driven through a registration form capturing complete contact and qualifying information.
- *DBTA* will enhance the distribution of your content in the Best Practices Series via online, email, and email newsletter advertising directed to more than 150,000 information management professionals in organizations across North America through its unique subscriber and affiliate network.

Your editorial topics can be wide ranging:

- Third-party white papers and white paper abstracts
- Successful customer case studies
- Your company's unique value proposition or market position
- A behind-the-scenes look at your technology solution and why it's important

Editorial and production services included

DBTA will take care of all the copy editing, layout, and design. And a PDF of the final article will be provided at no extra charge.

SPONSORSHIP RATES

Platinum – 4 pages (3,000 words): \$13,800

Gold – 3 pages (2,250 words): \$10,350

Silver – 2 pages (1,500 words): \$6,900

Standard – 1 page (750 words): \$3,950

Premium Sponsorships (Platinum, Gold, and Silver) also include premium positioning.
